DETAILED ACTION

Previous Office Action - Withdrawal

1. The *Ex Parte Quayle* action mailed on 13 August 2003 is hereby withdrawn due to claim objections which require appropriate correction. Examiner regrets any inconvenience caused by this action and the following new *Ex Parte Quayle* action is hereby substituted for the previous office action.

Conclusion

2. This application is in condition for allowance except for the following formal matters:

Claim Objections

Claims 5-21 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n).

Allowable Subject Matter

3. Claims 1-4 are allowed.

4. Claim 1 is allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, "said dish being connected to the bowl for rotation about the X-axis only and connected to the holder for rotation about the Y-axis only" as set forth in the claimed combination. Claims 2-4 are allowable due to their dependence on claim 1.

The prior art of record, Otenio et al US 5,969,891, Perry et al US 5,363,246 and Huddleston US 4,628,760 teach movement mechanisms which comprise spherical

Art Unit: 2872

bowls and spherical holders and a dish between a spherical bowl and holder (as shown for example in Huddleston Figure 2). However, none of the prior art teaches a dish being connected to the bowl for rotation about the X-axis only and connected to the holder for rotation about the Y-axis only and there is no motivation or teaching to modify this difference as derived.

5. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
